Other Skills

Adobe Illustrator / Adobe Photoshop / MS Office

PROJECTS

[10/06/2025 – 12/06/2025]

My Portfolio

This is my personal portfolio website where you can explore my projects, learn more about me, and find contact information. It's built with Next.js and styled using Tailwind CSS, with smooth animations powered by Framer Motion and other libraries to ensure a modern, responsive, and user-friendly design.

[12/04/2025 – 14/04/2025]

Audiophile Ecommerce Website

This project was built as part of a Frontend Mentor challenge. It's an e-commerce website for audio gadgets, where users can browse products, view detailed descriptions, add items to the cart, and manage quantities. I developed the project using React.js, Styled Components, React Router DOM, and TypeScript, focusing on clean UI, smooth navigation, and responsive design.

[01/07/2025 – 03/07/2025]

MultiPlay

This is a web-based platform that allows users to explore and play simple two-player games. The website includes user control functionality and is actively maintained, with ongoing updates and new games planned for future releases. It was built using React along with react-router-dom for client-side routing, framer-motion for smooth animations, Context API for global state management, Tailwind CSS for responsive styling, and other supporting libraries.

[04/03/2025 – 06/03/2025]

Entertaining Web App

This is a simple website prototype built as part of a Frontend Mentor challenge. Users can explore and search for movies, TV shows, and other content. The project was developed using React, React Router DOM, Styled Components, and React Hook Form. I also added subtle animations to enhance the user experience and create a clean, user-friendly interface.

[28/05/2025 – 29/05/2025]

Jobringer Page Redesign

This is a redesign of one of Jobringer's pages. I identified and improved several usability and visual issues while maintaining the original design language and color scheme. The project was built using React.js, Swiper.js, and Tailwind CSS, focusing on responsiveness and user experience.
